WELCOMING

Dear reader! We thank you for your interest in our AccelEd project aimed at developing Nursing science in Kazakhstan. The 3-year project is full of challenges, discoveries and achievements. We hope that participants will be able to gain knowledge in order to improve nursing in their future activities. Join us to be aware of each step of the project progress and to know future perspective of Nursing as well as to find new approaches and tools to carry out researches and improve them.

Sincerely,
AccelEd team

What is AccelEd?

The project "Accelerating Master and PhD level Nursing Education Development in the Higher Education System in Kazakhstan – AccelEd" seeks to reform nursing science and research in higher education system of Kazakhstan, focusing on modernization of governance, management and functioning of healthcare and physical-sciences-related higher education practices in Kazakhstan.

Years of implementation: 2021-2023.

The project team includes leading researchers, developers and teachers, who move in these directions:

Reinforcing nursing science in Kazakhstan

Strengthening nursing research methodology

Development of Nursing Education

Fostering evidence-based nursing through collaboration

Improving management and quality assurance of post-graduate nursing education

In order to reach the goal 11 organizations united their strengths:

Kazakhstani partners: Ministry of Health, Ministry of Education and Science, Astana Medical University, S. Asfendiyarov Kazakh National Medical University, Karaganda Medical University, South Kazakhstan Medical Academy, Nazarbayev University School of Medicine.

European partners: JAMK University of Applied Sciences, Lithuanian University of Health Sciences, University Medical Centre Utrecht, Abo Akademi University.
